

Less paperwork, more time to grow – that’s Agrian Grower and Agrian Documented Grower.

Agrian Grower & Agrian Documented Grower allow users to create reports rapidly online, send them electronically to food processors, handlers, shippers and regulatory agencies. It's the only field documentation and reporting tool that allows growers to receive and share recommendations and work orders from crop advisors and applicators in their own private and secure data sharing network.

Agrian Grower

- ▶ Saves time by delivering crop advisor's recommendations directly into the grower's account
- ▶ Provides free mapping tools for your fields
- ▶ Integrate product labels from our 225+ ag chemical manufactures' approved labels
- ▶ Saves time by automatically importing grower's site permits from the county (where applicable)
- ▶ Saves time by allowing the grower to transfer use reports to the state or county (where required)
- ▶ It's free and accessible on the Web from any browser

Agrian Documented Grower

Taking Agrian Grower to the next level is Agrian Documented Grower. Offering all of the features of Agrian Grower **plus...**

- ▶ Automatic management of all the grower's food safety compliance documents
- ▶ Electronically file product use reports to packer / processors / handlers
- ▶ Archive, upload and transmit compliance documents required by the food processor, handler and shipper
- ▶ Provides the use of the Agrian Documented logo in your marketing materials
- ▶ Low annual fee
