Research Triangle PK, NC 27709
USA

For MEDICAL, TRANSPORTATION or other EMERGENCY call: 1-800-334-7577 (24 hours/day)
For Product Information call: 1-866-99BAYER (1-866-992-2937)

SECTION 2. HAZARDS IDENTIFICATION

NOTE: Please refer to Section 11 for detailed toxicological information.

Emergency Overview
Warning! Causes substantial but temporary eye injury. May be fatal if swallowed. Harmful if inhaled or absorbed through skin. Do not get in eyes, on skin, or on clothing. Do not breathe vapours or spray mist. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

Physical State
liquid, clear

Appearance
yellow to amber

Exposure routes
Ingestion, Eye contact, Inhalation, Skin Absorption, Skin contact

Immediate Effects

<table>
<thead>
<tr>
<th>Eye</th>
<th>Severe eye irritation. Do not get in eyes.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Skin</td>
<td>Moderate skin irritation. This material has been shown to be a dermal sensitizer with the potential to cause allergic dermatitis in some individuals. Take appropriate precautions to avoid contact with the material. Contact with product may result in transient tingling and reddening of the skin. Do not get on skin.</td>
</tr>
<tr>
<td>Ingestion</td>
<td>May be fatal if swallowed. Do not take internally.</td>
</tr>
<tr>
<td>Inhalation</td>
<td>Mists may cause respiratory tract irritation. Irritation of mucous membranes Inhalation of high vapour concentrations can cause CNS-depression and narcosis. Do not breathe vapours or spray mist.</td>
</tr>
</tbody>
</table>

Chronic or Delayed Long-Term
This product contains ingredients that are considered to be probable or suspected human carcinogens (see Section 11 - Chronic).
Potential Environmental Effect

Highly toxic to bees. Extremely toxic to fish and aquatic invertebrates.

### SECTION 4. FIRST AID MEASURES

**General**
When possible, have the product container or label with you when calling a poison control center or doctor or going for treatment.

**Eye**
Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a physician or poison control center immediately.

**Skin**
Take off contaminated clothing and shoes immediately. Wash off immediately with plenty of water for at least 15 minutes. Call a physician or poison control center immediately.

**Ingestion**
Call a physician or poison control center immediately. Rinse out mouth and give water in small sips to drink. DO NOT induce vomiting unless directed to do so by a physician or poison control center. Never give anything by mouth to an unconscious person. Do not leave victim unattended.

**Inhalation**
Move to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a physician or poison control center immediately.

**Notes to physician**
**Hazards**
Contains hydrocarbon solvents. May pose an aspiration pneumonia hazard.

**Treatment**
Treat symptomatically. There is no specific antidote.

### SECTION 5. FIRE FIGHTING MEASURES

**Flash point**
62.8 °C / 145.0 °F
Test type: Setaflash tester

**Suitable extinguishing media**
Foam, Dry chemical, Water spray
Fire Fighting
Instructions
Keep out of smoke. Fight fire from upwind position. Cool closed containers exposed to fire with water spray. Do not allow run-off from fire fighting to enter drains or water courses.

Firefighters should wear NIOSH approved self-contained breathing apparatus and full protective clothing.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions
Keep unauthorized people away. Isolate hazard area. Avoid contact with spilled product or contaminated surfaces.

Methods for cleaning up
Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Collect and transfer the product into a properly labelled and tightly closed container. Clean contaminated floors and objects thoroughly, observing environmental regulations.

Additional advice
Use personal protective equipment. Do not allow to enter soil, waterways or waste water canal.

SECTION 7. HANDLING AND STORAGE

Handling procedures
Handle and open container in a manner as to prevent spillage. Maintain exposure levels below the exposure limit through the use of general and local exhaust ventilation.

Keep away from heat and sources of ignition.

Storing Procedures
Store in a cool, dry place and in such a manner as to prevent cross contamination with other crop protection products, fertilizers, food, and feed. Store in original container and out of the reach of children, preferably in a locked storage area.

The 30-day storage temperature average must not exceed the recommended maximum.

Work/Hygienic
Procedures
Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, using the toilet or applying cosmetics.

Remove Personal Protective Equipment (PPE) immediately after handling this product. Before removing gloves clean them with soap and water. Remove soiled clothing immediately and clean thoroughly before using again. Wash thoroughly and put on clean clothing.

Min/Max Storage
Temperatures
Recommended minimum transport/storage temperature: -18 °C / -0 °F
Recommended maximum transport/storage temperature: 38 °C / 100 °F
SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

General Protection  Follow all label instructions. Train employees in safe use of the product. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and warm/tepid water. Keep and wash PPE separately from other laundry.

Eye/Face Protection  Safety glasses, in case of increased risk, also a face shield or Goggles

Hand protection  Chemical-resistant gloves (barrier laminate, butyl rubber, nitrile rubber or Viton)

Body Protection  Wear long-sleeved shirt and long pants and shoes plus socks.

Respiratory protection  When respirators are required, select NIOSH approved equipment based on actual or potential airborne concentrations and in accordance with the appropriate regulatory standards and/or industry recommendations.

SECTION 10. STABILITY AND REACTIVITY

Chemical Stability: Stable under recommended storage conditions.

SECTION 11. TOXICOLOGICAL INFORMATION

Acute toxicity studies have not been performed on Baythroid XL containing beta-cyfluthrin, the enriched isomer mixture of the active ingredient, cyfluthrin. Acute toxicity studies have been bridged from a similar cyfluthrin formulation containing approximately twice the percentage of active ingredient. The non-acute information pertains to technical-grade beta-cyfluthrin. Toxicology information on cyfluthrin technical can be obtained by calling the Product Use Information Number on Page 1.

**Acute oral toxicity**
- male rat: LD50: 647 mg/kg
- female rat: LD50: 695 mg/kg

**Acute dermal toxicity**
- male/female combined rabbit: LD50: > 2,000 mg/kg
Acute inhalation toxicity

male rat: LC50: 0.7 mg/l
Exposure time: 4 h
Determined in the form of liquid aerosol. (actual)

female rat: LC50: 0.9 mg/l
Exposure time: 4 h
Determined in the form of liquid aerosol. (actual)

rat: LC50: > 2.0 mg/l
Exposure time: 1 h
Determined in the form of liquid aerosol. (actual)

Skin irritation
rabbit: Moderate skin irritation.

Eye irritation
rabbit: Severe eye irritation.

Sensitisation
guinea pig: Sensitising

Assessment Carcinogenicity

ACGIH
Cyclohexanone 108-94-1 Group A3
Naphthalene 91-20-3 Group A4

NTP
Naphthalene 91-20-3

IARC
Cyclohexanone 108-94-1 Overall evaluation: 3
Naphthalene 91-20-3 Overall evaluation: 2B

OSHA
None.

Reproductive toxicity
DEVELOPMENTAL TOXICITY: Beta-cyfluthrin was not a primary developmental toxicant in rats. Developmental effects were observed but were considered secondary to maternal toxicity.

Neurotoxicity
Beta-cyfluthrin produced slight transient neurobehavioral effects in acute, subchronic and developmental neurotoxicity screening studies in rats. These effects occurred at the highest dose tested and without correlating morphological changes in the neural tissues.

Mutagenicity
Beta-cyfluthrin was not mutagenic or genotoxic in a battery of in vitro and in vivo tests.
Environmental precautions

Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not apply when weather conditions favor runoff or drift. Drift and runoff from treated areas may be hazardous to aquatic organisms in adjacent sites. Do not contaminate surface or ground water by cleaning equipment or disposal of wastes, including equipment wash water. Apply this product as specified on the label.

Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

SECTION 13. DISPOSAL CONSIDERATIONS

General Disposal Guidance

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal

Triple rinse containers. Completely empty container into application equipment, then dispose of empty container in a sanitary landfill, by incineration or by other procedures approved by state/provincial and local authorities. If burned, stay out of smoke. Follow advice on product label and/or leaflet.

RCRA Information

Characterization and proper disposal of this material as a special or hazardous waste is dependent upon Federal, State and local laws and are the user's responsibility. RCRA classification may apply.
