

**Green
Cypress®**

Ag Aide

SPREADER • ACTIVATOR

CA Reg. No. 17545-50034

PRINCIPAL FUNCTIONING AGENTS:

Yucca schidigera extract 100%

**KEEP OUT OF REACH
OF CHILDREN
CAUTION**

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a Poison Control Center or doctor for treatment advice.

IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance then give artificial respiration, preferably mouth-to-mouth if possible. Call a Poison Control Center or doctor for further treatment advice.

Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Harmful if absorbed through skin or inhaled. Avoid contact with skin, eyes or clothing. Avoid breathing spray mist. Wear long sleeved shirt, long pants, shoes plus socks, and chemical resistant gloves made of any waterproof material when mixing or handling concentrate. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

DIRECTIONS FOR USE

GREEN CYPRESS AG AIDE is a natural, non-ionic surfactant that enhances the activity and performance of pesticides and foliar nutrients. When applied foliarly, this product provides rapid wetting and improves absorption of the spray solution. When applied to the soil, GREEN CYPRESS AG AIDE increases water penetration

and improves wetting of hydrophobic soils. This product may be used on agricultural, aquatic, forestry, turf and ornamental, industrial, and non-cropland sites. NOT FOR AQUATIC USE IN WASHINGTON.

Read and follow the precautions, restrictions and recommendations on the labels of pesticides used with GREEN CYPRESS AG AIDE. Use according to the most restrictive label directions for each product in any tank mix.

COMPATIBILITY: GREEN CYPRESS AG AIDE is compatible with most pesticides. However, if the desired combination has not been previously used, a compatibility test is recommended.

MIXING: Shake well before using. Fill spray tank 2/3 to 3/4 full of water and begin agitation. To prevent or minimize foaming, add an anti-foaming agent to the spray tank before adding other tank mix components. Add products as directed by label or in the following sequence and continue filling tank: (1) Dry flowables or water dispersing granules, (2) Wettable powders, (3) Flowables, (4) Solutions, (5) Emulsifiable concentrates. Minimize agitation and add the recommended amount of GREEN CYPRESS AG AIDE and mix for 1 to 2 minutes. Continue filling tank maintaining minimal agitation. Continuous agitation of finished spray is recommended. If spray solution has been allowed to stand, thoroughly agitate and remix before application.

RECOMMENDATIONS: Specific use rates will vary with conditions of application such as water hardness, application method, equipment, spray droplet size, condition of foliage, etc. Also, higher rates than those below may be used if recommended by pesticide labeling. Follow pesticide label directions. However, do not add this product at a rate which exceeds 5% of the finished spray volume.

SOIL APPLICATION: For normal soils, use 1 pint per acre with irrigation water. For compacted soils or for water penetration problems, use 2 pints per acre on first application. Repeat application at 1 pint rate if needed. **Row Crops:** Meter into the first irrigation water or mix with starter or side dress fertilizer. **Trees and Vines:** Meter into the first irrigation water for drip irrigation system or, if drip irrigation is not used, dilute in sufficient water for coverage and spray soil surface to be irrigated. **Transplants:** Mix with transplant water.

FOLIAR APPLICATION: Use 4-16 fl.oz. per 100 gallons of finished spray solution. For improved efficacy, use at least 8 fl.oz. per acre when finished spray volume is less than

20 gallons per acre. For backpack or hand held sprayers, use 1/3 to 1 1/4 fl.oz. per gallon of finished spray solution.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL.

STORAGE: Store in original container away from children, animals, foods, feeds and seeds. Keep away from direct sunlight and heat sources. Handle in accordance with Precautionary Statements. In the event of spillage or leakage, soak up the material with absorbent clay, sand, sawdust or other absorbent material. Scrape up and dispose in accordance with Product Disposal.

PRODUCT DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state or local ACRC recycler, visit the ACRC web page at www.acrcycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

CONDITIONS OF SALE AND WARRANTY

Monterey AgResources (MAR) warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated when used in accordance with the use directions under normal conditions. MAR neither makes, nor authorizes any agent or representative to make, any other warranties, express or implied, including fitness or merchantability.

The directions for use of this product are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as timing and method of application, weather and crop conditions, presence of other materials, or other influencing factors, all of which are beyond the control of MAR and Seller. Buyer and user acknowledge and assume all risks and liability resulting from the handling, storage and use of this material not in strict accordance with directions given herewith. In no case shall MAR or the Seller be liable for consequential, special, indirect, or incidental damages or losses resulting from the handling or use of this product. The foregoing is a condition of sale by MAR and is accepted as such by the Buyer.
