MATERIAL SAFETY DATA SHEET

1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

PRODUCT NAME(S): AMV 540; K-PAM® HL; Metam Potassium Manufacturing Use Concentrate
CHEMICAL NAME: Potassium –methylthiocarbamate solution
GENERAL USE: Soil Fumigant
PRODUCT DESCRIPTION: Yellow to light yellow-green liquid with the possibility of an amine and a sulfur odor.

EPA Registration Number(s): 5481-483; 5481-484
Health Canada Registration Number(s): None
MSDS No.: 279_8
Current Revision Date: 3 September, 2008

MANUFACTURER: AMVAC CHEMICAL CORPORATION
4100 E. Washington Blvd.
Los Angeles, CA  90023-4406
Ph: 323-264-3910
FAX: 323-268-1028

EMERGENCY TELEPHONE NUMBERS:
MANUFACTURER: 323-264-3910
TRANSPORTATION (24 HOURS) CHEMTREC: 800-424-9300
OTHER (24 HOURS) AMVAC: 323-264-3910

K-PAM is a registered Trademark of AMVAC Chemical Corporation.
3. HAZARDS IDENTIFICATION

EMERGENCY OVERVIEW:

DANGER! Dilution with water or with acids may generate poisonous gases (Methyl isothiocyanate (MITC) or Hydrogen sulfide) or flammable gases (Carbon disulfide and Monomethylamine). WARNING: Product is corrosive to skin. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Harmful if swallowed. Harmful if inhaled. Harmful if absorbed through the skin. Irritating to eyes, nose and throat. Do not get on skin or clothing. Avoid breathing vapor or spray mist. Do not get in eyes.

Toxic to fish. Do not contaminate water bodies.

POTENTIAL HEALTH EFFECTS

ROUTE(S) OF ENTRY: Eye contact, Skin contact, Inhalation

SIGNS OF ACUTE OVEREXPOSURE:
- Eye: Corrosive. Effects may range from moderate to severe (corrosion) depending on the length of exposure, solution concentration and first aid measures.
- Skin: Dermal irritant, corrosive. Moderate to severe skin irritation depending on length of exposure, solution concentration, and first aid measures.
- Inhalation: May cause irritation of mucous membranes and the lungs. Exposed individuals should be monitored for respiratory distress, bronchitis or pneumonia.
- Ingestion: Not expected to be a primary route of exposure. May be harmful due to corrosive effects.

SIGNS OF CHRONIC OVEREXPOSURE: Same as above, plus conjunctivitis, photophobia, and blurred vision. In addition, laboratory studies have shown that exposure to the active ingredient, followed by ingestion of alcohol, may cause an adverse reaction, including low blood pressure, rapid heart beat, and flushing of the skin. Consumption of alcohol during and after exposure to this product should be avoided.

OTHER POTENTIAL HEALTH EFFECTS: Laboratory studies with a similar compound, Metam Sodium, have shown some developmental and carcinogenic effects in laboratory animals. Exposure monitoring studies conducted during agricultural applications of Metam Sodium have shown that human exposure is extremely low; therefore, any potential risk to humans from exposure to any Metam salt solutions is considered minimal. Care should be exercised and all label instructions should be followed in the handling of Metam potassium solutions.
3. **HAZARDS IDENTIFICATION, cont'd**

**MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE:** Impaired pulmonary function and preexisting eye problems may be aggravated. Preexisting skin diseases may also be aggravated by exposure to the decomposition products.

4. **FIRST AID MEASURES**

**EYES:** Immediately flush the eyes with copious amounts of clear, cool running water for a minimum of 15 minutes. Hold the eyelids apart during the flushing to ensure rinsing of the entire surface of the eyes and lids with water. Contact a physician immediately. If there will be a delay in getting medical attention, rinse the eyes for at least another 15 minutes.

**INHALATION:** Remove victim to fresh air. If breathing has ceased, clear the victim's airway and start mouth-to-mouth artificial respiration. If breathing is difficult, give oxygen. Contact a physician immediately.

**INGESTION:** Immediately dilute the swallowed product by giving large quantities of water, but do not induce vomiting. If vomiting occurs, give fluids again. Have a physician determine if condition of patient will permit induction of vomiting or evacuation of stomach. Never give anything by mouth to an unconscious person. Contact a physician immediately.

**SKIN:** Immediately flush all affected areas with large amounts of clear water for at least 15 minutes. Remove contaminated clothing. Do not attempt to neutralize with chemical agents. Wash clothing before reuse. If skin irritation develops, contact a physician immediately.

**NOTE TO PHYSICIANS:** Treat symptomatically. Contact AMVAC Chemical Corporation at 323-264-3910, or a POISON CONTROL Center, for additional information.

5. **FIRE FIGHTING MEASURES**

**FLAMMABLE PROPERTIES**
- Flash Point: > 200°F (TCC)
- Autoignition Temperature: Not determined
- Flammable Limits:
  - Lower flammable limit: Not determined
  - Upper flammable limit: Not determined

**EXPLOSIVITY:**
- Mechanical Impact: Not determined. Not expected to be sensitive to mechanical impact.
- Static Discharge: Not determined
- Rate of Burning: Not determined
- Explosive Power: Not determined
5. **FIRE FIGHTING MEASURES, cont'd**

**HAZARDOUS COMBUSTION PRODUCTS:** This product will release toxic fumes of methylisothiocyanate (MITC) and hydrogen sulfide, as well as nitrogen oxides, when heated to decomposition or diluted with water.

**EXTINGUISHING MEDIA:** This product is water-based and is not flammable. Base extinguisher media on surrounding materials. **NOTE:** Dilution with water or exposure to high heat may cause generation of flammable and toxic fumes. See **Chemical Stability** information in SECTION 10.

**FIRE FIGHTING INSTRUCTIONS:** Evacuate nonessential personnel from the area. Wear self-contained breathing apparatus and impervious clothing. Clean all clothing before reuse.

---

6. **ACCIDENTAL RELEASE MEASURES**

**GENERAL:** Use adequate ventilation and air-supplied respirators, as well as impervious clothing and safety goggles. Keep bystanders upwind and away from the spill.

**SMALL SPILL:** Cover with absorbent (clay, sawdust, straw, kitty litter, etc.) to absorb the liquid. Sweep into an open drum. Clean the area with common powdered household detergent and a stiff brush and just enough water to make a slurry. Absorb and sweep into the same open drum. Rinse with water, absorb, and add to the waste drum. Close the drum and dispose of properly.

**LARGE SPILL:** Dike the spill to prevent contamination of local water sources. Siphon the majority of the liquid into drums for use or disposal, depending on the circumstances. Clean the area as described for a small spill.

---

7. **HANDLING AND STORAGE**

**HANDLING:** Prevent skin contact. Do not breathe fumes. Wear appropriate personal protective equipment. Wash thoroughly and change clothes after handling. See product label for more detailed handling procedures.

**STORAGE:** Do not contaminate water, food or feed by storage or disposal. Store product in a cool, dry, locked place out of reach of children. Do not store below 32°F. Product crystallizes at lower temperatures. See label for specific instructions.

---

8. **EXPOSURE CONTROLS/PERSONAL PROTECTION**

**ENGINEERING CONTROLS:** A well-ventilated area is recommended for handling Potassium—methyldithiocarbamate. Use of mechanical or local exhaust systems is recommended.
8. **EXPOSURE CONTROLS/PERSONAL PROTECTION, cont'd**

**RESPIRATORY PROTECTION:** A properly **FIT-TESTED** NIOSH/MSHA approved respirator fitted with organic vapor cartridges may be required when working with this product. If ventilation is poor, or a rotten egg odor (Hydrogen sulfide) is detected, an air-supplied respirator is required. Specific use regulations are listed on the label.

**SKIN PROTECTION:** Chemical resistant gloves, body covering clothing that has long sleeves and long pants, and chemical resistant shoes or boots, are required to prevent skin contamination. A chemical resistant apron may be required under certain circumstances. Wear clean clothes daily. Wash well with soap and water after handling this product. See the label for more specific instructions.

**EYE PROTECTION:** Safety glasses should be worn whenever working with chemicals. Face-sealing goggles and a faceshield (or full-face respirators) are required whenever there is a chance of splashing or misting.

**OTHER PROTECTION:** An eyewash station and a safety shower should be located in close proximity to the work area.

9. **PHYSICAL AND CHEMICAL PROPERTIES**

**PHYSICAL STATE:** Liquid

**APPEARANCE:** Yellow to light yellow-green liquid.

**ODOR:** Essentially odorless to fairly strong odor of amine or sulfur.

**BOILING POINT:** 112°C/234°F

**FREEZING/MELTING POINT:** Not available

**VAPOR PRESSURE (mm/Hg):** 24 mm Hg @ 25°C

**VAPOR DENSITY:** Not available

**SPECIFIC GRAVITY:** 1.27 g/mL @ 20°C/4°C (68°F/39°F)

**BULK DENSITY:** 10.6 lb/gal

**EVAPORATION RATE:** 1.0 as compared to water.

**PERCENT VOLATILE BY VOL:** 46% (@ 100°C)

**SOLUBILITY IN WATER:** Miscible

**pH:** 9.0 - 11.5

**PARTITION COEFFICIENT (W/O):** Not applicable

10. **STABILITY AND REACTIVITY**

**CHEMICAL STABILITY (Conditions to avoid):** Metam Potassium decomposes, when diluted with water, to methyl isothiocyanate (MITC, a lachrymator and moderate poison) and/or to hydrogen sulfide (a highly poisonous gas). It can also decompose to carbon disulfide and monomethylamine (both highly flammable). Use the solution promptly after mixing. Do not allow the solution to stand. As originally packaged, it is stable under normal storage conditions for 2 years.
10. **STABILITY AND REACTIVITY, cont'd**

**INCOMPATIBILITY:** This product is incompatible with additional water and strong aqueous acids. In addition, it is corrosive to copper, brass, and zinc, and may soften and/or discolor iron.

**HAZARDOUS DECOMPOSITION PRODUCTS:** When treated with water or heated to decomposition, this product will give off toxic fumes of methyl isothiocyanate (MITC), hydrogen sulfide, sulfur oxides, and nitrogen oxides.

**HAZARDOUS POLYMERIZATION:** This product will not polymerize.

11. **TOXICOLOGICAL INFORMATION**

**GENERAL:** Information has been included for the product, a similar product and for two potential decomposition products in order to help potential users to have a clearer idea of the hazards associated with this product.

**TERATOGENICITY:** Laboratory studies on a similar product, Metam Sodium, have shown some developmental effects in laboratory animals.

**MUTAGENICITY:** Laboratory studies on a similar product, Metam Sodium, have shown some evidence of mutagenicity in vitro, but no conclusive evidence in vivo.

**CARCINOGENICITY:** Laboratory studies on a similar compound, Metam Sodium, have shown some carcinogenic effects in laboratory animals.

**REPRODUCTIVE TOXICITY:** Laboratory studies on a similar product, Metam Sodium, have shown no evidence of reproductive toxicity in laboratory animals.

**TOXICOLOGICALLY SYNERGISTIC PRODUCTS:** No information is available.
12. **ECOLOGICAL INFORMATION**

**GENERAL:** This product is toxic to fish. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

13. **DISPOSAL CONSIDERATIONS**

**PESTICIDE DISPOSAL:** Do not contaminate water, food or feed by disposal. Wastes resulting from the use of this product may be disposed on site by use according to the label or at an approved waste disposal facility. Be sure to check with the appropriate Federal, State and local authorities to determine the current regulations for your area.

**CONTAINER DISPOSAL:** Do not reuse the empty container. Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose in a sanitary landfill, or by incineration, or, if allowed by State and local authorities, by burning. If the container is burned stay out of the smoke. Be sure to check with the appropriate Federal, State and local authorities to determine the current regulations for your area.

14. **TRANSPORTATION INFORMATION**

**DOT CLASS:** 8
**UN NUMBER:** UN3266
**IMDG CLASS (Sea):** 8
**MARINE POLLUTANT:** Yes
**IATA (Air):** 8
**PACKING GROUP:** III
**HAZARD LABEL(s):** CORROSIVE
**ADR CLASS (Road):** Not listed in ADR
**PROPER SHIPPING NAME(s):** Corrosive liquid, basic, inorganic, n.o.s.(Potassium N-methylthiocarbamate)

**REPORTABLE QUANTITY:** No

**PACKAGING**

**GENERAL DESCRIPTION:** Bulk; 55 gallon poly drums; 275 gallon tote bin

15. **REGULATORY INFORMATION**

**U.S. FEDERAL REGULATIONS:** These products are registered under EPA/FIFRA Regulations. It is a violation of Federal Law to use these products in any manner inconsistent with their labeling. Read and follow all label directions. These products are excluded from listing requirements under EPA/TSCA.

**CANADIAN REGULATIONS:** These products are not registered in Canada.
15. **REGULATORY INFORMATION, cont'd**

**SARA TITLE III DATA**

Section 311 & 312 Hazard Categories:
- Immediate Health Hazard: Yes
- Delayed Health Hazard: Yes
- Fire Hazard: No
- Reactive Hazard: No
- Sudden Pressure Release Hazard: No

**Section 302 Extremely Hazardous Substances:** None

**Section 313 Toxic Chemicals:** Potassium –methylthiocarbamate (CAS No. 137-41-7)

CERCLA Reportable Quantity (RQ): None

**STATE REGULATIONS:**
- **CALIFORNIA (Proposition 65):** None

16. **OTHER INFORMATION**

**MSDS STATUS:**
- Date This Revision: 8 September, 2008
- Date Previous Revision: 4 March, 2005
- Person Responsible for Preparation: Gary A. Braden

**Reasons for Revision:** Annual Review. Formatting and information upgrades will be made throughout the msds as required to reflect current practice and knowledge. Information has been updated in section 1 to reflect the current registration status of these products.

**DISCLAIMER:** This information is provided for the limited guidance to the user. While AMVAC believes that the information is, as of the date hereof, reliable, it is the user's responsibility to determine the suitability of the information for its purposes. The user is advised not to construe the information as absolutely complete since additional information may be necessary or desirable when particular, exceptional, or variable conditions or circumstances exist (like combinations with other materials), or because of applicable regulations. No express or implied warranty of merchantability or fitness for a particular purpose or otherwise is made hereunder with respect to the information or the product to which the information relates.
