LIBERTY® Herbicide
EPA Reg No. 264-660

+

Lumax® Herbicide
EPA Reg No. 100-1152

For Use on LibertyLink® Corn

PRODUCT BULLETIN

For Use and Distribution Only in the States of Colorado, Connecticut, Delaware, Illinois, Iowa, Kansas, Maine, Maryland, Massachusetts, Michigan, Minnesota, New Jersey, Ohio, Pennsylvania, South Dakota, Vermont, Virginia, West Virginia, Wisconsin, Wyoming

FIFRA Section 2(ee) Recommendation: This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or accepted by the U.S. Environmental Protection Agency. It is a violation of federal law to use this product in a manner inconsistent with its label. This product bulletin must be in the possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.

Liberty® Herbicide + Lumax® Herbicide

In situations where the application of a preemergence herbicide has been delayed and both the corn and weeds have emerged, a tank mixture of Liberty® Herbicide + Lumax® Herbicide allows the grower to obtain control of emerged grass and broadleaf weeds and achieve residual weed control.

Ground Application

Flat fan nozzles are recommended for the most uniform coverage. To maximize weed control, apply at 15-20 gallons per acre with a spray nozzle pressure of 40-60 PSI to produce a medium (300 microns) droplet size. Apply to actively growing weeds.

Liberty® Herbicide + Tankmix Partners

Product	Rate	Adjuvants	Application Window	Target
Liberty® Herbicide + Lumax®	28-32 oz/A + Refer to Lumax® label	AMS 1.5 lb/A	Emergence to 12" corn	Control of emerged grass & broadleaf weeds with residual control.

Restrictions and Precautions

- For use on seed designated as LibertyLink®.
- Follow all applicable use directions, precautions, and restrictions on the product labels of Liberty® Herbicide and Lumax® Herbicide.
- Liberty® Herbicide must be applied with ammonium sulfate (AMS), the use of additional adjuvants is not recommended.
