| IF IN EYES: | • Hold eye open and rinse slowly and gently with water for 15-20 minutes.  
  • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.  
  • Call a poison control center or doctor for treatment advice. |
| IF ON SKIN OR CLOTHING: | • Take off contaminated clothing.  
  • Rinse skin immediately with plenty of water for 15-20 minutes.  
  • Call a poison control center or doctor for treatment advice. |
| IF INHALED: | • Move person to fresh air.  
  • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.  
  • Call a poison control center or doctor for further treatment advice. |
| IF SWALLOWED: | • Call a poison control center or doctor immediately for treatment advice.  
  • Have person sip a glass of water if able to swallow. |
**5. FIRE FIGHTING MEASURES**

**FLASH POINT:** Not applicable  
**METHOD USED:** Not applicable  
**FLAMMABLE LIMITS:** LFL/UFL: Not applicable  
**AUTOIGNITION TEMPERATURE:** Not applicable  
**FLAMMABILITY:** Not applicable  
**EXTINGUISHING MEDIA:** Foam, CO₂, dry chemical  

**UNUSUAL FIRE, EXPLOSION, AND REACTIVITY HAZARDS:** This product is considered electrically conductive. Static electricity, mechanical sparks, open flames and certain hot surfaces (greater than 680°F [360°C] can serve as ignition sources for this material. This material can energetically decompose at approximately 383°F (195°C).  

**HAZARDOUS DECOMPOSITION PRODUCTS:** Can decompose at high temperatures forming toxic gases.  

**FIRE-FIGHTING PROCEDURES:** Wear full protective clothing and self-contained breathing apparatus. Evacuate nonessential personnel from the area to prevent human exposure to fire, smoke, fumes or products of combustion. Prevent use of contaminated buildings, area, and equipment until decontaminated. Water runoff can cause environmental damage. If water is used to fight fire, dike and collect runoff.

**6. ACCIDENTAL RELEASE MEASURES**  

**ACTION TO TAKE FOR SPILLS/LEAKS:** Control the spill at its source. Contain the spill to prevent from spreading or contaminating soil or from entering sewage and drainage system or any body of water. Clean up spills immediately, observing precautions outlined in Section 8. Sweep up material and place in a compatible disposal container. Scrub area with hard water detergent (e.g. commercial products such as Tide, Joy, Spic and Span). Pick up wash liquid with additional absorbent and place into compatible disposal container. Once all material is clean up and placed in a disposal container, seal container and arrange for disposition.

**7. HANDLING AND STORAGE**  

**PRECAUTIONS TO BE TAKEN IN HANDLING:** Prevent eating, drinking, tobacco use, and cosmetic application in areas where there is a potential for exposure to the material. Wash thoroughly with soap and water after handling.  

Bulk bags (FIBC) used to contain this material should be either Type B or Type C. If Type C bags are used, make sure they are electrically grounded before powder is discharged from the bag.  

Handle this material only in electrically conductive equipment. Electrically ground and bond this equipment as well as any worker who could contact a dust cloud formed of this material. Eliminate the presence of mechanical sparks and other ignition sources where dust clouds of this material could form.

**PRECAUTIONS TO BE TAKEN IN STORAGE:** Store in original container away from fertilizer, feed, or foodstuffs. Do not store or process above 320°F (160°C). Store material in a well-ventilated, secure area out of reach of children and domestic animals. Do not store food, beverages or tobacco products in the storage area.  

**STORAGE TEMPERATURE (MIN/MAX):**  
Minimum: Normal ambient temperatures.  
Maximum: 320°F (160°C)

**8. EXPOSURE CONTROLS/PERSONAL PROTECTION**  

THE FOLLOWING RECOMMENDATIONS FOR EXPOSURE CONTROLS/PERSONAL PROTECTION ARE INTENDED FOR THE MANUFACTURE, FORMULATION, PACKAGING AND USE OF THIS
PRODUCT. FOR COMMERCIAL APPLICATIONS AND/OR ON-FARM APPLICATIONS CONSULT THE PRODUCT LABEL.

INGESTION PROTECTION: Prevent eating, drinking, tobacco usage and cosmetic application in areas where there is a potential for exposure to the material. Wash thoroughly with soap and water after handling.

EYE PROTECTION: Where contact is likely, use chemical splash goggles.

RESPIRATORY PROTECTION: Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below exposure limits. A NIOSH-certified combination air-purifying respirator with an N, P or R 95 or HE class filter and an organic vapor cartridge may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air-purifying respirators is limited. Use a pressure demand atmosphere-supplying respirator if there is any potential for uncontrolled release, exposure levels are not known, or under any other circumstances where air-purifying respirators may not provide adequate protection.

SKIN PROTECTION: Where contact is likely, wear chemical-resistant gloves (such as nitrile or butyl), coveralls, socks and chemical-resistant footwear. For overhead exposure, wear chemical-resistant headgear.

USER SAFETY RECOMMENDATIONS:
Users should:
- Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- After handling this product, immediately wash the outside of gloves before removing them. Immediately wash thoroughly and change into clean clothing.

EXPOSURE GUIDELINES: Refer to Section 2.
ENGINEERING CONTROLS: Refer to product label.
