Bayer Environmental Science

Material Safety Data Sheet
PYRENONE® 25-5 M.A.G.C.

MSDS Number: 102000004841
MSDS Version 3.0
Revision Date: 05/14/2008

SECTION 1. CHEMICAL PRODUCT AND COMPANY INFORMATION

Product Name: PYRENONE® 25-5 M.A.G.C.
MSDS Number: 102000004841
EPA Registration No.: 432-1050

Bayer Environmental Science
2 T.W. Alexander Drive
Research Triangle PK, NC 27709
USA

For MEDICAL, TRANSPORTATION or other EMERGENCY call: 1-800-334-7577 (24 hours/day)
For Product Information call: 1-800-331-2867

SECTION 3. HAZARDS IDENTIFICATION

NOTE: Please refer to Section 11 for detailed toxicological information.

Emergency Overview: Caution! Harmful by inhalation and if swallowed. Avoid breathing spray mist. Avoid contact with skin, eyes and clothing. Wash thoroughly with soap and water after handling.

Physical State: liquid
Odor: mild
Appearance: amber

Routes of Exposure: Ingestion, Inhalation, Eye contact, Skin contact

Immediate Effects:
- **Eye**: Slight irritation. Avoid contact with eyes.
- **Skin**: May cause slight irritation. Avoid contact with skin and clothing.
- **Ingestion**: Harmful if swallowed. Do not take internally.
- **Inhalation**: Harmful if inhaled. Avoid breathing spray mist.
Chronic or Delayed Long-Term

This product contains ingredients that are considered to be probable or suspected human carcinogens (see Section 11 - Chronic). This product or its components may have target organ effects. This product or its components may have long term (chronic) health effects.

Potential Environmental Effect

Highly toxic to fish.

SECTION 4. FIRST AID MEASURES

General

When possible, have the product container or label with you when calling a poison control center or doctor or going for treatment.

Eye

Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a physician or poison control center immediately.

Skin

Take off contaminated clothing and shoes immediately. Wash off immediately with plenty of water for at least 15 minutes. Call a physician or poison control center immediately.

Ingestion

Call a physician or poison control center immediately. DO NOT induce vomiting unless directed to do so by a physician or poison control center. Never give anything by mouth to an unconscious person. Do not leave victim unattended.

Inhalation

Move to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a physician or poison control center immediately.

Notes to Physician

Signs and Symptoms

Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhoea. If large amounts are ingested, the following symptoms may occur:
- dizziness
- Lack of coordination
- Tremors
- unconsciousness

Hazards

Contains hydrocarbon solvents. May pose an aspiration pneumonia hazard.

Treatment

There is no specific antidote. Appropriate supportive and symptomatic treatment as indicated by the patient's condition is recommended.

SECTION 5. FIRE FIGHTING MEASURES

Flash point

137.8 °C / 280.0 °F
Test type: Tag closed cup
Suitable Extinguishing Media
Carbon dioxide (CO2), Dry chemical, Foam, Water

Fire Fighting Instructions
Keep out of smoke. Fight fire from upwind position. Cool closed containers/tanks exposed to fire with water spray. Do not allow run-off from fire fighting to enter drains or water courses.

Firefighters should wear NIOSH approved self-contained breathing apparatus and full protective clothing.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal Precautions
Keep unauthorized people away. Isolate hazard area. Avoid contact with spilled product or contaminated surfaces.

Methods for Cleaning Up
Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder). Collect and transfer the product into a properly labelled and tightly closed container. Clean contaminated floors and objects thoroughly, observing environmental regulations.

Additional Advice
Use personal protective equipment. Do not allow to enter soil, waterways or waste water canal.

SECTION 7. HANDLING AND STORAGE

Handling Procedures
Handle and open container in a manner as to prevent spillage. Maintain exposure levels below the exposure limit through the use of general and local exhaust ventilation.

Storing Procedures
Store in original container and out of the reach of children, preferably in a locked storage area. Store in a cool, dry place and in such a manner as to prevent cross contamination with other pesticides, fertilizers, food, and feed.

Work/Hygienic Procedures
Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, using the toilet or applying cosmetics.

Remove Personal Protective Equipment (PPE) immediately after handling this product. Before removing gloves clean them with soap and water. Remove soiled clothing immediately and clean thoroughly before using again. Wash thoroughly and put on clean clothing.

SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

General Protection
Follow all label instructions. Train employees in safe use of the product.
Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and warm/tepid water. Keep and wash PPE separately from other laundry.

**Eye/Face Protection**
- Tightly fitting safety goggles

**Hand Protection**
- Chemical resistant nitrile rubber gloves

**Body Protection**
- Wear long-sleeved shirt and long pants and shoes plus socks.

**Respiratory Protection**
- When respirators are required, select NIOSH approved equipment based on actual or potential airborne concentrations and in accordance with the appropriate regulatory standards and/or industry recommendations.

**Exposure Limits**

*OES BCS: Internal Bayer CropScience "Occupational Exposure Standard"

**SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES**

- **Appearance**: amber
- **Physical State**: liquid
- **Odor**: mild
- **Density**: approx. 0.881 g/cm³ at 20 °C
- **Water solubility**: insoluble

**SECTION 10. STABILITY AND REACTIVITY**

- **Conditions to Avoid**: Heat, flames and sparks.
- **Incompatibility**: Strong oxidizing agents
- **Hazardous Reactions**: Stable under normal conditions.
SECTION 11. TOXICOLOGICAL INFORMATION

Acute toxicity studies have not been performed on this formulation. Acute data provided is from a similar formulation containing 3.93 and 32.26% of the active ingredients, pyrethrin and piperonyl butoxide, respectively. The non-acute information pertains to the technical-grade active ingredients.

**Acute Oral Toxicity**
- male/female combined rat: LD50: > 5,000 mg/kg

**Acute Dermal Toxicity**
- male/female combined rabbit: LD50: > 5,000 mg/kg

**Acute Inhalation Toxicity**
- male/female combined rat: LC50: > 4.9 mg/l
  - Exposure time: 4 h
  - Determined in the form of liquid aerosol.
  - male/female combined rat: LC50: > 19.6 mg/l
  - Exposure time: 1 h
  - Determined in the form of liquid aerosol.
  - Extrapolated from the 4 hr LC50.

**Skin Irritation**
- rabbit: Slight irritation.

**Eye Irritation**
- rabbit: Slight irritation.

**Sensitization**
- guinea pig: sensitizing

**Chronic Toxicity**
- Pyrethrin caused effects in the liver, lung, thyroid and/or nervous system in chronic studies in mice, rats and dogs.
- Piperonyl butoxide caused decreased body weights and/or increased organ weights (liver, kidney, adrenal) in chronic studies in rats and dogs.

**Assessment Carcinogenicity**
- Pyrethrin is classified by EPA as "Suggestive Evidence of Carcinogenicity, but Not Sufficient to Assess Human Carcinogenic Potential" based on the occurrence of benign liver tumors only in female rats. Therefore, an assessment of cancer risk to humans from potential exposure to pyrethrins is not required.
- Piperonyl butoxide gave no evidence of a carcinogenic potential in a lifetime feeding study in rats. In an oncogenicity study in mice, piperonyl butoxide caused an increased incidence of liver tumors. The US EPA has categorized piperonyl butoxide as a group C carcinogen, possible human carcinogen, based on limited evidence of cancer in laboratory animals.

**ACGIH**
- Pyrethrins including cinerins: 8003-34-7 Group A4

**NTP**
- None.

**IARC**
- Piperonyl butoxide: 51-03-6 Overall evaluation: 3

**OSHA**
- None.
Reproductive & Developmental Toxicity

REPRODUCTION:
Pyrethrin was not a reproductive toxicant in a multi-generation rat study.

Piperonyl butoxide was not a reproductive toxicant in a two-generation study in rats.

DEVELOPMENTAL TOXICITY:
Pyrethrin was not a developmental toxicant in rats and rabbits.

Piperonyl butoxide did not cause developmental, embryotoxic or teratogenic effects in developmental toxicity studies in rats and rabbits.

Neurotoxicity

Pyrethrin caused neurobehavioral effects (e.g., tremors) in rats following acute and repeated oral exposure.

Piperonyl butoxide did not demonstrate the potential to cause neurotoxicity in standard toxicity studies submitted to the Agency. EPA has concluded that there is not a concern for neurotoxicity resulting from exposure to piperonyl butoxide.

Mutagenicity

Pyrethrin was not mutagenic or genotoxic in a battery of in vitro and in vivo tests.

Piperonyl butoxide does not have significant potential for mutagenicity based on sufficient evidence.

SECTION 12. ECOLOGICAL INFORMATION

Environmental Precautions

Do not apply when weather conditions favor runoff or drift. Do not contaminate surface or ground water by cleaning equipment or disposal of wastes, including equipment wash water. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Apply this product as specified on the label.

SECTION 13. DISPOSAL CONSIDERATIONS

General Disposal Guidance

Pesticide, spray mixture or rinse water that cannot be used according to label instructions may be disposed of on site or at an approved waste disposal facility.

Container Disposal

Do not re-use empty containers. Triple rinse containers. Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill or incineration, or if allowed by State and Local authorities, by burning. If burned, stay out of smoke. Follow advice on product label and/or leaflet.
SECTION 14. TRANSPORT INFORMATION

DOT CLASSIFICATION:
Not regulated for packages less than 2.7 gallons*

* When packages size is greater than 2.7 gallons the RQ of Pyrethins is met at 1 lbs. product is regulated as follows:
RQ, UN3082, Environmentally Hazardous Substances, Liquid, N.O.S. (Pyrethrins), 9, PG III*

* Note: Pyrethrins are known to be a Marine Pollutant

FREIGHT CLASSIFICATION:
Insecticides or Fungicides, N.O.I.; other than poison

SECTION 15. REGULATORY INFORMATION
