SECTION 1. CHEMICAL PRODUCT AND COMPANY INFORMATION

Product Name: RADIUS™ HERBICIDE
MSDS Number: 102000012422
EPA Registration No.: 264-852
Product Use: A herbicide used for weed control in field corn and corn grown for silage.

Bayer CropScience
2 T.W. Alexander Drive
Research Triangle PK, NC 27709
USA

For MEDICAL, TRANSPORTATION or other EMERGENCY call 1-800-334-7577 (24 hours/day)
For Product Information call 1-866-99BAYER (1-866-992-2937)

SECTION 3. HAZARDS IDENTIFICATION

NOTE: Please refer to Section 11 for detailed toxicological information.

Emergency Overview: Caution! Hazard to humans and domestic animals. Harmful if swallowed. Harmful if inhaled. Avoid contact with skin, eyes and clothing. Avoid inhalation of vapour or mist.

Physical State: liquid viscous

Appearance: off-white

SECTION 4. FIRST AID MEASURES

General: Have the product container or label with you when calling a poison control center or doctor or going for treatment.

Eye: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Skin: Take off all contaminated clothing immediately. Rinse immediately with plenty of water for at least 15 minutes. Call a poison control center or doctor for treatment advice.
Ingestion

Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. DO NOT induce vomiting unless directed to do so by a physician or poison control center. Never give anything by mouth to an unconscious person.

Inhalation

Move to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

Notes to Physician

Treatment

There is no specific antidote. Appropriate supportive and symptomatic treatment as indicated by the patient’s condition is recommended.

SECTION 5. FIRE FIGHTING MEASURES

Flash Point

no data available

Suitable Extinguishing Media

Use appropriate extinguishing media for material that is supplying fuel.

Fire Fighting Instructions

Keep unnecessary people away, isolate hazard area and deny entry. Dike area to prevent runoff and contamination of water sources. Fight fire from upwind position. Cool closed containers exposed to fire with water spray. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.

Firefighters should wear NIOSH approved self-contained breathing apparatus and full protective clothing.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal Precautions

Wear personal protective equipment. Unprotected persons must be kept away. Refer to protective measures listed in sections 7 and 8.

Methods for Cleaning Up

Contain and collect spillage with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13).

Decontaminate tools and equipment following cleanup. Collect washings for disposal. Dispose in accordance with all local, state/provincial and federal regulations.

Additional Advice

Avoid contact with spilled product or contaminated surfaces. Do not allow material to enter streams, sewers, or other waterways or contact vegetation. Contact Bayer for further assistance if necessary.
SECTION 7. HANDLING AND STORAGE

Handling Procedures
Use proper protective equipment to minimize personal exposure (see Section 8).

Storing Procedures
Store in a cool, dry place and in such a manner as to prevent cross contamination with other pesticides, fertilizers, food, and feed. Store in original container and out of the reach of children, preferably in a locked storage area.

Work/Hygienic Procedures
Handle in accordance with good industrial hygiene and safety practice. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, using the toilet or applying cosmetics.

Avoid contact with skin, eyes and clothing. Do not breathe vapours or spray mist. Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

Remove Personal Protective Equipment (PPE) immediately after handling this product. Before removing gloves clean them with soap and water. As soon as practical, wash thoroughly and change into clean clothing.

SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

General Protection
Educate and train employees in safe use of the product. Follow all label instructions.

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

Engineering Controls
Maintain exposure levels below the exposure limit through the use of general and local exhaust ventilation.

Eye/Face Protection
Chemical resistant goggles must be worn. An emergency eye wash must be readily accessible to the work area.

Hand Protection
Chemical-resistant gloves made of waterproof material such as neoprene, butyl rubber, barrier laminate or nitrile rubber.

Body Protection
Wear long-sleeved shirt and long pants and shoes plus socks. An emergency shower must be readily accessible to the work area.

Respiratory Protection
When respirators are required, select NIOSH approved equipment based on actual or potential airborne concentrations and in accordance with the appropriate regulatory standards and/or Industry recommendations.

SECTION 11. TOXICOLOGICAL INFORMATION

Acute toxicity studies have not been performed on this product as formulated. The acute toxicity data provided has been bridged from a similar formulation containing the active ingredients, flufenacet technical and isoxaflutole technical. The non-acute information pertains to the technical-grade active ingredients.

Isoxaflutole is not mutagenic, teratogenic or a reproductive toxin. In long-term feeding studies in rodents, liver tumors were observed in rats and mice and thyroid tumors in rats. These effects were only seen at the highest dose tested (the Maximum Tolerated Dose) which was far higher than any exposure that could be envisaged for humans. Thus, isoxaflutole presents negligible, if any, increased cancer risk for humans.

**Acute Toxicity**

- **Acute Oral Toxicity**: male/female rat: LD50: > 500 - < 1,000 mg/kg
- **Acute Dermal Toxicity**: male/female rat: LD50: > 4,000 mg/kg
- **Acute Inhalation Toxicity**: male/female rat: LC50: 4-hr exposure to liquid aerosol: > 1.886 mg/l (actual) Maximum attainable concentration. No deaths

**Skin Irritation**: rabbit: slight irritation

**Eye Irritation**: rabbit: Minimally irritating.

**Sensitization**: guinea pig: Non-sensitizing

**Chronic Toxicity**: Flufenacet caused liver, kidney, thyroid, eye, and/or brain effects in chronic dietary studies in rats and dogs. In addition, neurological effects were observed in dogs.

**Assessment Carcinogenicity**: Flufenacet was not carcinogenic in oncogenicity studies in rats and mice.
### Reproductive & Developmental Toxicity

**REPRODUCTION:** Flufenacet was not mutagenic or genotoxic in a battery of in vitro and in vivo mutagenicity studies.

**DEVELOPMENTAL TOXICITY:** Flufenacet was not a primary developmental toxicant in rats and rabbits. Developmental effects were observed only at doses that caused maternal toxicity.

### Neurotoxicity

Flufenacet caused neurobehavioral effects and/or neuropathological changes in acute and subchronic neurotoxicity screening studies in rats. In a developmental neurotoxicity study in rats, flufenacet did not cause any specific neurobehavioral effects in the offspring.

### Mutagenicity

Flufenacet was not mutagenic or genotoxic in a battery of in vitro and in vivo mutagenicity studies.

---

### SECTION 12. ECOLOGICAL INFORMATION

**Environmental Precautions**

Drift or runoff may adversely affect non-target plants. Drift and runoff from treated areas may be hazardous to fish/aquatic organisms in adjacent sites. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not apply when weather conditions favor runoff or drift. Do not contaminate surface or ground water by cleaning equipment or disposal of wastes, including equipment wash water.
SECTION 13. DISPOSAL CONSIDERATIONS

General Disposal Guidance
Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal
Triple rinse containers. Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill or incineration, or if allowed by State and Local authorities, by burning. If burned, stay out of smoke.

SECTION 14. TRANSPORT INFORMATION

TRANSPORTATION CLASSIFICATION:
Not regulated for all modes of transportation

FREIGHT CLASSIFICATION:
Compounds, Tree or Weedkilling, N.O.I., other than poison; Having a density of greater than 20 LBS. per cubic foot

SECTION 15. REGULATORY INFORMATION

EPA Registration No. 264-852

US Federal Regulations
TSCA list
None.

US. Toxic Substances Control Act (TSCA) Section 12(b) Export Notification (40 CFR 707, Subpt D)
None.

SARA Title III - Section 302 - Notification and Information
None.

SARA Title III - Section 313 - Toxic Chemical Release Reporting
None.

US States Regulatory Reporting
CA Prop65
This product contains a chemical known to the State of California to cause cancer.
Isoxaflutole 141112-29-0

This product does not contain any substances known to the State of California to cause reproductive harm.

US State Right-To-Know Ingredients
None.

Canadian Regulations
Canadian Domestic Substance List
None.
Environmental

CERCLA
None.

Clean Water Section 307 Priority Pollutants
None.

Safe Drinking Water Act Maximum Contaminant Levels
None.

SECTION 16. OTHER INFORMATION

NFPA

Health - 1  Flammability - 0  Reactivity - 0  Others - none
0 = minimal hazard, 1 = slight hazard, 2 = moderate hazard, 3 = severe hazard, 4 = extreme hazard
