Rely[®] 280

EPA Reg. No. 264-829

For Control of Grape sucker

PRODUCT BULLETIN

FOR DISTRIBUTION AND USE ONLY IN THE STATE OF NEW YORK

FIFRA Section 2(ee) Recommendation: This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or accepted by the U.S. Environmental Protection Agency. It is a violation of federal law to use this product in a manner inconsistent with its label. This product bulletin must be in the possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.

USE RECOMMENDATIONS

Rely 280 is labeled for use in grapes for weed control. In addition, Rely 280 will reduce or eliminate sucker growth when applied to grape vine suckers that are young, green, and uncallused. For sucker control, apply a split application approximately 4 weeks apart of 56 fl oz/A in a broadcast application. Coverage of all sucker foliage is necessary for optimum control. Suckers should not exceed 12 inches in length. Rely 280 should be applied broadcast in a minimum of 15 gallons of water per acre to achieve complete coverage of sucker foliage and terminal buds.

RESTRICTIONS

- DO NOT apply more than 246 fl oz/A of Rely 280 in any calendar year.
- DO NOT make spot or directed spray applications to vine trunk as injury may occur.
- Avoid contact of Rely 280 solution, spray, drift or mist with green bark, stems, or foliage as injury may occur.
- Not for use In Nassau and Suffolk Counties.
