Steric P DS is a water soluble plant food containing two primary plant nutrients and is designed to correct phosphate deficiencies. This plant food nutrient is designed for dissolving in water that allows the material to be injected into irrigation systems.

Steric P DS will quickly boost plant growth during critical or high growth periods and can help prevent damage due to weather. It is also a low salt index product allowing it to be used in planter band applications.

Steric P DS can be applied to most vegetable crops, row crops, deciduous fruit and nut trees, citrus, avocados, grapes, melons, ornamentals, turf, pasture, range grasses and most other crops.

**DIRECTIONS FOR USE**

Dissolve 1 to 2.3 lbs of Steric P DS per one gallon of water. Add Steric P DS to a partially filled tank and then continue to fill the tank with the remaining water while maintaining constant agitation of the solution to ensure uniform mixing. The higher concentrations of Steric P DS may require the use of warm water to ensure complete dissolution.

**GUARANTEED ANALYSIS**

</tr>
</tbody>
</table>

**APPLICATION RATE**

Once mixed, apply 2 to 50 gallons per acre of Steric P DS alone or with compatible fertilizers. Apply the following rates of Steric P DS alone if you do not have a soil or leaf analysis:

- Minor phosphate deficiency: 2 to 10 gallons/acre
- Moderate to severe phosphate deficiency: 10 to 50 gallons/acre

After initial application, monitor petiole phosphate levels and apply again if necessary.

If using center-pivot irrigation equipment, use only with electric or oil hydraulic drive systems that provide a uniform water distribution.

Use of acid resistant pumps when injecting this material is advised.

**CONDITION OF SALE**

Seller warrants that the product conforms to the chemical description and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. Since weather, crop, soil and other conditions may vary, Northwest Agricultural Products, Inc. and/or seller make no warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risks of use of handling, whether or not in accordance with directions or suggestions to the extent consistent with applicable law.

**SAFETY INFORMATION**

Always wear appropriate personal protective equipment (goggles, face mask, rubber gloves, etc.) when handling Steric P DS or any agricultural product.
