GENERAL INFORMATION

Super Spread MSO is a 100% modified vegetable oil/surfactant blend that aids in penetration of the spray through the waxy cuticle. Super Spread MSO is a multifunctional spray concentrate with wetting and penetrating properties.

SUGGESTIONS FOR USE

Super Spread MSO may be used in place of nonionic surfactants or crop oil concentrates in liquid spray mixtures. When used as directed, Super Spread MSO maximizes the activity and effectiveness of certain post emerge herbicides. Therefore, care must be taken in treating sensitive crops during periods when plants are subjected to drought stress, high temperatures and high humidity.

For herbicides that permit use of a surfactant at a higher rate, follow instructions on the herbicide label. HOWEVER, DO NOT ADD THIS PRODUCT AT A RATE WHICH EXCEEDS 5% OF THE FINISHED SPRAY VOLUME. EXCEPT WHEN USED AS A DILUENT IN DORMANT, BASAL, SITE PREPARATION OR OTHER SIMILAR APPLICATIONS, PER LABEL INSTRUCTIONS.

NOT FOR AQUATIC USE.

DIRECTIONS FOR USE

Rates of Super Spread MSO may vary with the conditions of application. Use Super Spread MSO at the rate of 1-2 pts. per acre. The high end of the recommended use rate may be necessary when plants are subjected to extreme stress or weed populations. The addition of a nitrogen fertilizer such 28% N solution or ammonium sulfate may be necessary to improve control under extreme environmental conditions or to satisfy certain label requirements. Always add Super Spread MSO last to the spray mixture while providing good agitation.
